[2021 - 2022]

Junior Processing Officer
Worked in payment processing unit, handled Citi Bank cheque while ensuring accuracy and process them with banking regulations.

EDUCATION

BCA in Computer Applications [2021]
SRM University
8.1 - CGPA

PROJECTS

Hospital Management System
- Built a website using java as backend and HTML, CSS for the frontend and MYSQL as database.
- It implements all the activities of the hospital in a computerized automated way to fasten the performance.
- This includes doctors, staff, and patient details.

E-License Generator
- I have created a web-based application using HTML and CSS for the frontend. For the backend, MySQL, java, servlet.
- Users must sign in to access the system using their email ID and password. Once logged in, they can update their information, view their license, and delete their records permanently.

Portfolio
- I have created my portfolio webpage using html, CSS and java script
- It contains 5 section home, about, skills, project and contact each section contains the particular contact.
